Name of the Affiliating University : **University of Calcutta**

Year of Report :

November, 2013 – June, 2014

July, 2014 – June, 2015

Section A

Plan of action chalked out by the IQAC in the beginning of the year 2014-2015 towards quality enhancement (attach separate sheet if required).

Plan of action chalked out by the IQAC for towards quality enhancement can be stated as below:

- i) New courses/programmes are to be introduced in addition to the existing subjects.
- ii) Plan and estimate of ladies hostel are to be finalized before sending to relevant authority.
- iii) To accelerate the construction of new building and campus.
- iv) Proposal to introduce language laboratory and e-corner in the library.
- v) A journal to be published regularly which will be a compilation of talks delivered by the teachers in the journal club.

Section B

Details in respect of the following (attach separate sheet)

1. Activities reflecting the goals and objectives of the college.

In keeping with the goals and objectives which guide the activities of our institution we are constantly working towards improving our infrastructure and facilities for imparting better education to our students. Honours programmes in two new subjects, Education and Sanskrit have been introduced from the session 2015-2016. A language lab has been set up for improving the English speaking skill of the students, something which has been the Achilles heel of the majority of our mostly rural students. NSS and NCC activities aiming at the holistic development of the students mind and personality have also continued throughout the session, like in the previous years.

Many financially weak, but meritorious and deserving, general category students of our college, who do not have access to any kind of govt. stipends, are given financial aid to facilitate their higher studies.

2. New academic programmes initiated (UG and PG).

New academic programmes initiated in the sessions 2013-2014(November-June) and 2014-2015(July-June) after NAAC, 2nd cycle are Sanskrit Honours and Education Honours. The date of affiliation of both the programmes is 27th May, 2015.

3. Innovations in curricular design and transaction.

The College has limited scope in curriculum design and related innovations as transactions are centrally done by the affiliating university. However, faculty members of the college can represent in the Board of Studies meetings organized by the university. There are representation of faculty

members in the UG Council also. Curriculum design is made in the Board of Studies' meetings in discussion with the UG Council. The faculty members can express their views regarding curriculum design by the way of such representation. Moreover, faculty members can interact in the seminars/workshops organised by the Board of Studies in connection to modification of existing courses. Besides, a draft syllabus is circulated to various HODs as soon as it reaches.

4. Inter-Disciplinary Programmes Started.

The college could not show much achievement in this field. However, a Journal Club is recently developed where a selected faculty member delivers a speech on a special topic in presence of other teachers. A journal named *Sarvodaya: Journal of Human Development* is published in 1st January, 2015 based on speeches delivered earlier.

5. Examination reforms implemented.

Examination reforms are centrally made by the affiliating university with the approval of the UG Council. However, college has chances to express its view in this regard by the representation and participation of faculty members in different meetings/seminars/workshops organized by the central bodies. Apart from that each department conducts regular class tests, micro teaching for the students to remove their weaknesses and shortcomings.

23. Courses in which student assessment of teachers is introduced and the action taken on student feedback.

College has effective mechanism in which assessment of teachers by the students can be made. Students have direct approach to Principal to inform about status of regular classes and teachers concerned. Students' Union also plays a vital role in this regard according to the verbal feedback of the running students. Besides, college has a grievance redressed cell where students can also express their views regarding quality of teaching and teachers concerned. Apart from that the feedback form as per NAAC guidelines are provided to outgoing third year students who submit the same in dully filled in form without disclosing their identities. In all cases concerned teacher is made aware of the fact by the HODs, Principal so that situation can be improved.
